Health and Safety at Churchside Federation

1. Roles and Accountabilities

The Diocese of Norwich Education and Academies Trust is accountable for all policies across its Academies. All policies, whether relating to an individual academy or the whole Trust, will be written and implemented in line with our ethos and values as articulated in our prospectus. We are committed to the provision of high quality education in the context of the Christian values of service, thankfulness and humility where individuals are valued, aspirations are high, hope is nurtured and talents released.

A Scheme of Delegation for each academy sets out the responsibilities of the Local Governing Body and Principal / Head Teacher. The Principal / Head Teacher of each academy are responsible for the implementation of all policies of the Academy Trust.

All employees of the Academy Trust are subject to the Trust's policies.

2. Introduction:

2.1 Churchside Federation has as a duty under the Health and Safety at Work Act 1974 to provide safe and healthy working conditions for employees and to ensure that their work does not adversely affect the health and safety of other people (e.g. pupils and visitors).

It is the aim of the Local Governing Body of the academy to comply with The Health and Safety at Work Act 1974 and all subsequent legislation.

The Local Governing Body are committed to taking effective action "so far as is reasonably practical" to ensure the health, safety and wellbeing of all the academy staff, employees, pupils, visitors, contractors and any other person affected by its activities.

Where necessary, the Local Governing Body will seek specialist advice to determine the risks to health and safety in the establishment and the precautions required to deal with them.

All employees must follow policy, procedures and guidance to ensure the maintenance of high standards of health and safety in all academy premises and activities. Serious breaches of the health and safety policy may be treated as disciplinary offences

2.2 This policy should be read in conjunction with the DNEAT Trust wide Health and Safety Policy, Procedures and Guidelines.

2.3 The objectives of this policy is to ensure the following, as far as is reasonably practicable:

- a) Equipment and systems of work are safe and without risks to health and well being
- b) Safe arrangements are in place for the use, handling, storage and transport of articles and substances
- c) Sufficient information, instruction, training and supervision to enable all employees to identify hazards, reduce risks and contribute positively to their own and to others safety, health and well-being.

- d) A safe and healthy place of work, including safe access to and safe egress from it.
- e) A healthy working environment in line with current legislation identifying, eliminating and controlling risks.
- f) Adequate welfare facilities.

This policy has been formulated with reference to the need for employer/employee consultation on health, safety and well-being matters and the need to consult individuals before the allocation of particular health and safety functions.

2.4 Expert advice for determining the risks to health and safety within the establishment and the precautions required to deal with them is available from the DNEAT Operations Manager Sharon Money and her email address is sharon.money@ dneat.org and/or from purchased services at Norfolk County Council via Norfolk Health and Wellbeing team

4.19 KEEPING LIVESTOCK

Schools may wish to keep a small number of animals (eg chickens or rabbits) to encourage children to learn about animals and their care and to teach them about the sources of food. The keeping of hooved animals is not sanctioned by the Trust due to the risk of disease and the possible impact on the business continuity of the academy and this must be noted when introducing new animals to the school environment.

Issues to consider include the following.

- Ensuring that someone involved is experienced in the housing, feeding, handling and care requirements.
- Ensuring that continuous animal care will be available at all times, including at weekends and over the holidays.
- Ensuring that funding for setting up and maintaining stock, including veterinary fees, will remain available.
- Considering for how long the animals will be kept and where they will go if not kept permanently.
- Checking that anyone that may be affected by the animals, eg, other members of the school and neighbours are happy with arrangements.
- Ensuring that suitable secure housing and containment is provided for the animals and that their other needs are met.
- Ensuring the health and safety of pupils, staff and other people that may come into contact with the animals and follow the CLEAPSS guidelines.
- Registration with DEFRA may be required (and anyone keeping poultry is encouraged to do so too).
 - Check the DEFRA web site regularly for the current requirements.
 - General good hygiene and good animal husbandry practice and arrangements are critical.

4.20 Conclusion

It is everybody's responsibility to make sure these arrangements work in practice. Any member of staff noticing a failure to comply with the policy should immediately report the circumstances to their line manager. If no action is seen to be taken, guidance should be

sought from the DNEAT Operations Manager Sharon Money or the trade union health and safety representative.

If an improvement or prohibition notice is served by an enforcing officer the Headteacher/Principal should immediately inform the DNEAT Chief Executive/DNEAT Operations Manager and comply with the requirements of the notice.

This policy will be monitored by DNEAT to assess its effectiveness and to determine whether satisfactory standards of safety performance are being achieved. Monitoring can be achieved by accident/incident reporting, safety inspections/review of Headteacher/Principal termly reports or annual governor audits through Governor Hub. Health and Safety audits are undertaken by Norfolk County Council Health and Safety team/DNEAT.

Review

A review of this health and safety policy will take place with the Union Safety representative on an annual basis
