

Kestrels Home Learning Monday 11<sup>th</sup> May  
Weekly tasks to do when possible:

**Grammar:** Research hyphens. How are they used? Can you use these in some sentences?

**Spelling:** Practise writing words with hyphens in and then cover them and rewrite them. The rule is included in this PowerPoint.

**Arithmetic:** Practise adding and subtracting fractions with different denominators (Remember to find a common denominator!)

Please make sure you are reading daily, for at least 20 minutes.

Japan Activities for the week!

I have suggested some activities below which are suitable for a Year 5/6 class but can also be done by younger children with some help.

Choose the activities you would most like to do and present them creatively! You can present your work however you like, for example, in the form of artwork, a scrapbook, a PowerPoint.

**Our weekly focus for this week is Art.**

**Please see the next slide for the activities.**

## Suggested afternoon activities for the week:

- Can you make some complex origami? Could you make an artistic sculpture out of individual origami pieces?
- Japanese writing is often done with a brush. Can you practise your Japanese writing and make yourself a sign for your room?
- There is a specific type of comic drawing in Japan called manga. Many of the characters from television and popular culture are drawn in this way- for example, Pokémon. Research this way of drawing and draw yourself as a manga character or design your own Pokémon!
- There is plenty of blossom around now, why not take a photograph of these on a daily walk and edit it artistically or try painting or drawing your own.
- Koi carp are very symbolic in Japanese culture as you found in previous weeks, you could practise your sketching by copying a koi carp drawing.
- Research some famous Japanese art and artists and create a presentation about them or try to copy a piece of art yourself.

# Spelling rule: Explanation

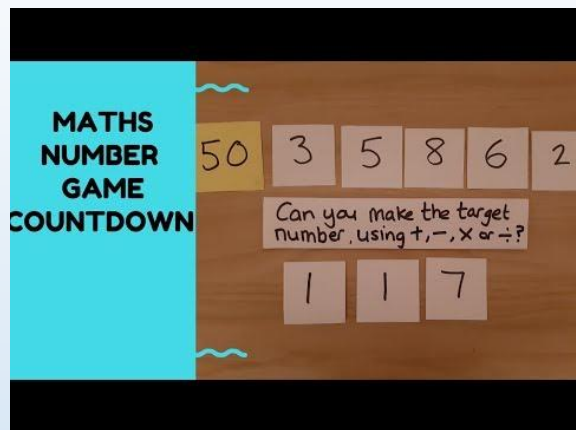

Which words are confusing to read? Why?

reenter    reply    deice    detail

Use a hyphen between a prefix and a root word  
ONLY to avoid confusion.

re-enter    de-ice    co-own

This is often when the last letter of the prefix and  
the first letter of the root word are vowels.

## Kestrels - Monday 11<sup>th</sup> May 2020

Maths- To play a mathematical game with the four operations.

English- To read the next 2 chapters of GMT.

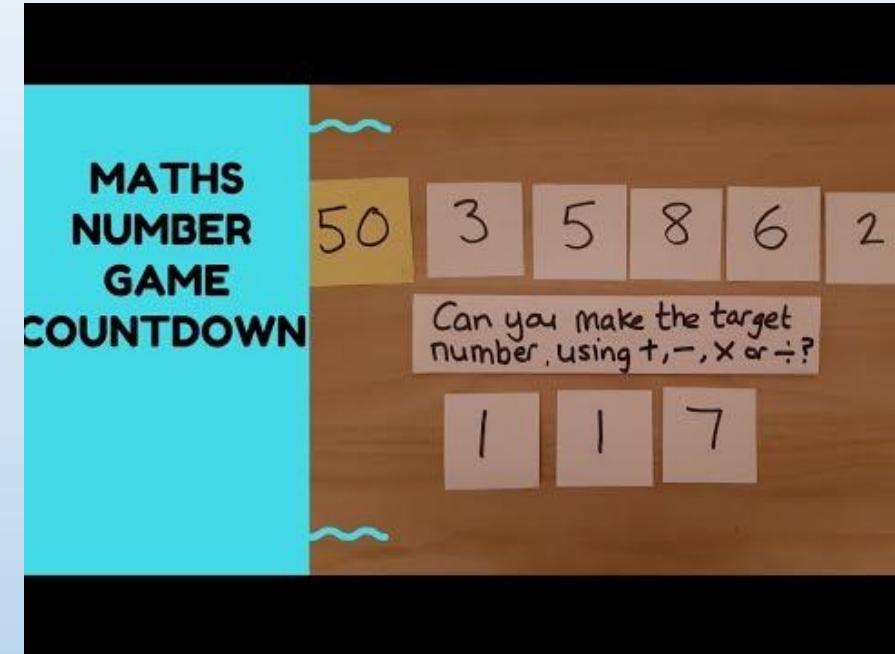

## Maths

L.O: To play a mathematical game with the four operations.

Our next topic in Maths is multiplication and division! To get your brains straight into your multiplication and division knowledge, I would like you to have a go at playing target number from Countdown!

All you'll need to do, is to create some number cards (2 sets of 1-9) and on a different colour- a 25, 50 and 100. Get another member of your family to choose a target number (3-digit is best, but you could make it easier by having a 2-digit target number) for you to get to using the number cards and any operation you choose (+ - x ÷). You may not be able to make the actual answer, but see how close you can get. You can make this competitive: the closest answer wins!

Or you could play a game like this: Make the number you are given with the cards you are dealt, using the different operations- + - x ÷.

## **MATHS CARD GAME**

**24**

Can you make 24?

## English

L.O: To read the next 2 chapters of GMT.

Read chapter 16 (The Search) and chapter 17 (Rescue) of *Goodnight Mister Tom*.

Again, these chapters are very sad, if you need to read a bit and skip a bit, that is ok.
