

Reception Halving.

Mexico has some beautiful beaches. Can you draw/paint a picture of a beach you may have visited.

Can you label your picture with the features.

Can you have a go at having amounts. Remember when you half amounts both sides have to be equal. You will need to use even numbers.

Maybe it has palm trees?

Can you create your own obstacle course. Time yourself to see how long it takes to complete. Can you do it faster the more you practise?

Phonics; Today we are revising tricky words. Can you read all of these words? Try using them in a sentence.

Phase 3 Tricky Words

he	she	we	me
be	you	all	are
her	was	they	my

ink saving Eco

Remember there are lots of games you can access on Phonics play for free at the moment to support phonics learning.

<https://new.phonicsplay.co.uk/>

Remember to read everyday.

Can you practise forming letters?

Spelling – can you sort these words under the correct heading?

Hard 'g' Sound

 goat	 cage	 gate	 get	 glide
 gem	 page	 dog	 allergic	 giant
 green	 grandma	 gentle	 frog	 slug
 drag	 hedgehog	 gerbil	 great	 jug
 peg	 golf	 girl	 gold	 gone
 goo	 gel	 goal	 gym	 gap
 fog	 gas	 age	 teenager	 dig

Soft 'g' Sound

English – Using time connectives.

Time Connectives

First	Later	In due course
Next	In the end	At first
Just then	Finally	Until then
Meanwhile	After a while	After that
When	Immediately	In the mean time
Before long	Eventually	Once
	After some time	

Last day revising time connectives today. Can you write about your day yesterday using a variety of time connectives?

First I woke up at 7 in the morning ...

Mental Arithmetic – Doubling numbers. We will focus on this all week so you will be experts!

Double It!						
4 in a Row						
Roll a 6-sided die. Double the number. Find the double on the game board and cover with a counter.						
First player with 4 counters in a row wins!						
2	6	4	8	4	2	10
10	8	12	12	6	8	8
4	12	6	2	10	10	4
6	2	8	6	12	2	6
12	10	12	4	10	6	4
8	2	6	8	4	2	2
12	10	4	12	4	10	8

Draw out this grid - Play with a partner. Roll a dice and double the number. Then cover it with a counter. The first player to get 4 in a row wins!

10. 2 thirds = 3 quarters

True

False

Fractions - True or False?

11. $\frac{1}{4}$ of 28 is less than $\frac{1}{3}$ of 33.

True

False

Over the next 4 weeks, for your topic work, you are going to be completing a project about Mexico! Everyone in the school is doing the same project so that if you have siblings, then you can all do similar activities and teach each other things. Activities will be posted weekly with a particular focus (the first one is Climate and Geography)

Choose the activities you would most like to do and present them creatively! You can present your work however you like, for example, in the form of artwork, a scrapbook, a PowerPoint.

Suggested activities for Climate and Geography. (Please feel free to do your own if you would prefer.)

- Can you find Mexico on a map? What is its capital city? What Oceans does it have around it? Can you draw a map of Mexico and add the cities and oceans. Does Mexico have borders with any other countries?
 - What does the flag of Mexico look like? Can you draw it? Does it have a meaning?
 - Are there any mountains, volcanoes, rivers, lakes or deserts. Are there any famous landmarks? Can you research one and make a tourist information leaflet. Can you add pictures?
 - What is the Climate like in Mexico? Does it have seasons? Are some parts of the country hotter than others? How does this compare to England?
 - What is the Capital City of Mexico Like? How is it the same/different from London? What is its population? Can you write a postcard as if you are in Mexico's Capital telling a family member what it is like. You could talk about the temperature, how busy it is, what the buildings and shops are like.
- REMEMBER, you do not have to do all of these in a week, they are just ideas. Have fun.
