

How to make a Mexican clay pot.

What you need:

Clay, bored knife and water.

1. Make a ~~ball~~ ball then put you your finger to make a hole.
2. Start to make the hole bigger into a bowl shape.
3. Grate a piece of clay and make a long line the curl it so it looks like a c. the stick it on with water to smooth it.

4. Do a long line again to go on to top of the cup as a pattern.

5. Let it dry and then when it is dry ~~to~~ it then you can paint it.

That is how to make a Mexican clay pot.

By: Jack Drummond. :)

How to make a Mexican clay pot?

Equipment:

- Clay
- Clay mat
- Clay coning tools

1. Put clay mat on a table and also put the clay on the clay mat.

2. Roll your clay into a ball, then push your thumb between 5-1 cm down (depends on size of the ball).

3. Then smooth out the clay to make a flat bottom surface and walls around it.

4. Then you now make two semi circle handles for the pot, stick them opposite each other.

5. You can now use the tool to make patterns on the side, now the exciting bit: you can put paint on, Enjoy

How to make Mexican pinch pots

side and back
Clay knife (small)
Washer
A board
Clay

1. Got your board and make 2 balls of Clay.
2. Now make a hole in 1 ball. Tip: don't make the hole without a bottom. About the size of half a kid's middle finger hole is :)
3. With the ball that has a hole, rub the hole.

4. With the other ball of Clay, add the fibers and stick with washer. (use clay knife usually)

5. leave to dry.
6. PAINT!!!
