

# Welcome to Oak Class!

From tiny acorns, mighty oaks grow

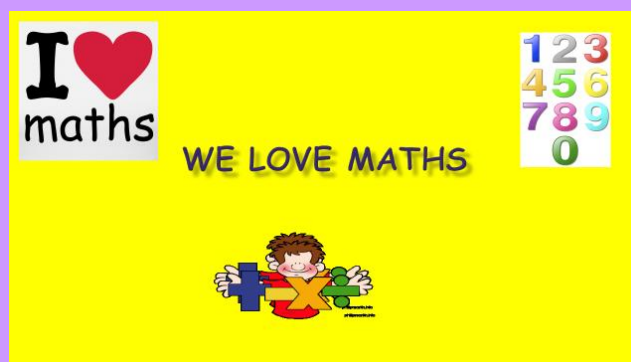

We are having a great time!

Always busy!

Oak class children are always busy learning at school. We have lots to do every day! We start off with our Fast Phonics session to help us with reading, spellings and writing. We also have a Maths Meeting where we count, name shapes, predict patterns and use mathematical language to describe position every day.

We love Maths! Yes we do!

Our Topic this half term is:

Which is the greatest show?

As we are off to Sandringham House and Gardens for our School Trip, we thought we would have a Flower Show!

We have planted our sunflower seeds and hoping to see which ones grow the tallest!

We are keen to find out what roots do?

Why are sunflowers so tall?

Why are sunflowers so pretty?

We are going to be exploring the great painting by Vincent Van Gogh and finding out why this painting is liked around the world!

Here are some reminders so you know what else we get up to on each day!

### **Monday**

We have a great start to the week, working really hard learning a new phonics sound.

### **Tuesday**

Today is our P.E. day. So make sure we are all wearing our P.E. kit for the whole day.

### **Wednesday**

We will be doing lots of Topic work today! Be prepared for painting, clay, craft and glue! Washing machines at the ready!

### **Thursday**

Another PE day so please wear PE kit again! Today is our day to work in the tents! Please make sure coats and jumpers are at school to keep us all warm! We will be working outside in all weathers!

### **Friday**

We end the week with some musical fun and learning how to be kind to each other with our Circle Time and PATHS sessions.

You will be given a reading book to share at home. Encourage your child to read at home every day. Make it fun by talking about the pictures first and predicting what might be happening or what might happen next.
