

Acorns Nursery Autumn 1

Welcome to Acorn Newsletter!

We are starting a new school year with a new adventure and looking forward to lots of fun!
Here are our focus areas for learning for Autumn.

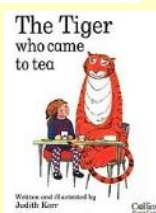

Maths

This term we will be focussing on counting and recognising numbers
We will be using dice to learn to count the dots really quickly to eventually not even needing to count them but know them off by heart.

Literacy

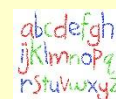

Each week we have new book to explore and enjoy. We learn some new words and talk about them.

Phonics

We will start off our phonics sessions by learning to listen to different sounds around us and exploring how we make those sounds with our mouths and lips.

We will be learning to sing the alphabet

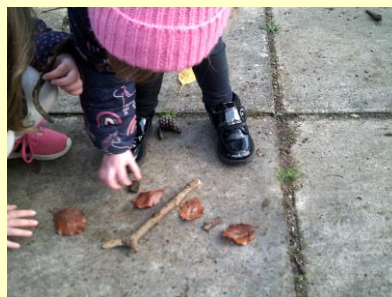

Expressive Arts and Design

This term we will be looking at colour mixing and exploring mark making with different tools from inside and outside!

Autumn Term 1

Understanding the World

This term we will be looking at things that grow and how they change.

Physical Development

We have lots of space to run around, explore and play at school. We will be using the trim trail, bikes and trikes and large field to run, jump, climb and zoom around. We also use lots of building, cutting and pinching skills to develop our hands in readiness to write.

Personal, Social and Emotional Development

Each term we learn about our feelings during PATHS and PSHE sessions. We play turn taking games and talk about our different feelings and how to show our feelings in the right way to others.
At the end of each day our PATHS Pupil of the day is given lots of compliments by the other children!

Communication and Language

Our day always begins with a reminder of how to be a good listener and why it is important to listen to someone when they speak. We work on turn taking when talking and sharing our ideas, and showing others we are listening by looking at them when they are speaking.
