

Sycamore News

Summer 2 edition

02/06/25

Hello everyone! Welcome to our newsletter this half term and an overview of our final topic- crossing borders! This topic will see us travel around the world, understand trade, shipping, time zones and more! We will also have a chance to look into the physical, human geography and culture of a country we are interested in finding out more about! If you have any questions, please do not hesitate to ask or email me at sycamore@mundford.dheat.org. I look forward to another exciting half term of learning and the final half term of year 6!

English:

In English, we will be reading Holes, set in Camp Green Lake, Texas. We are going to be writing our own Wild West stories amongst other genres of writing!

Maths:

This half term, we will be looking at Algebra and being able to find unknowns in a calculation, including being able to substitute numbers into equations.

Crossing borders

Science:

In Science, we will be looking at the properties of light and how time zones work around the world.

Geography:

In Geography, we will be looking at trade and globalisation, including the importance of ports and shipping. We will also do a research project into a country of choice, researching its physical and human Geography and using all of our geographical skills we have learnt!

Art/ DT

In Art, we will be creating print based artwork based on the work of Henry Moore from the underground tube stations which were used as shelters during WW2. In DT, we will be creating our own replica air raid shelters.

History

In History, we are going to be studying World War 2, looking at the countries that were allies and axis powers to Germany and which countries Germany invaded before the war began.
